THE HISTORY OF DARK METAL'S DESIGN

“EVERYTHING CHANGES”

The source of life is black. Everything we know first comes from darkness, meets the light, and blends with colors. Just like unique photographs emerging in the dark room. The depths of the human being are also dark. That place is the starting point of everything where we can just be ourselves, where we can dream and realize; in a sense, the first room of the human being...

When we retire into our shell, we virtually see in the dark. Dreams, ideas light up there and illuminate the entire world ...One must first dive into those deep depths in order to explore creativity.

That is why the best ideas come out of those who live the life dark. So, we have acted freely and reflected the darkest of our creativity in Dark Metal. We are delighted to present another unique design that we have produced with the free spirit of disobedience and captured a fantastic harmony with life. Dark Metal teen room now awaits to meet the light of its owner in order to reflect its endless colors.

*For those who live life in the dark,
from darkness to light...*

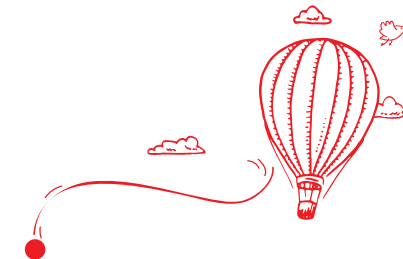

Dark but illuminated. Rebellious inside
but harmonious on the outside.
Wood and metal. Smooth but textured.
Simple but full.
This concept is really full of surprises.
