› Staircase With Cabinet Oak  
40x95x139 cm | Code: 20.30.1418.00

# Studio Oak Modules

Here we are with the Studio series, which has been renewed for the best use and designed with new additional modules.

The newly added modules to our series provide space-saving and an organized environment to the room while offering ease of use with their functional modules. It makes a difference in storage and usage areas with a wardrobe, desk, and bed that can be positioned under the bunk bed.

The modules have been renewed after evaluating the feedback of our esteemed dealers and consumer demands. It offers practicality and functionality at the same time.

We improve it to create and transform the living spaces of the kids. Briefly, to provide the advantage of versatile use, the Studio series brings a new generation of functionality to living spaces...

## Studio Modifications

On the Studio white series, we used a red Cilek logo..

For the edges of the Studio white items, we used the kontra edge band, the same as; the one we use on the Montes White series..

For the bed slat at the bottom, we produced it as three pieces to ease assembly and spare parts issues as well.

Also, on the rear side board of the bed, we round off the edges to have smooth edges on the top.

### New Product

20.77.1415.00  
Studio Drawer Pull-Out Bed White (90x200 Cm)

## Studio Modifications

For the upper bed module, the right and left sides panels and the back panel we raised 4.5 cm to provide extra depth and more safety.

We solved the earlier problem of the breaking the lower step of the staircase with the cabinet; we changed the joints and strengthened them.

To connect the staircase with the cabinet with the bunk bed, we added holes in the lower compartment of the staircase.
