

SHOWCARD – Mate Compact Room

Dear Business Partner;

We present to you and your consumers the unisex teen bedroom, **MATE COMPACT ROOM**, in which anthracite and beige colors are combined, with compact modules to use small spaces efficiently

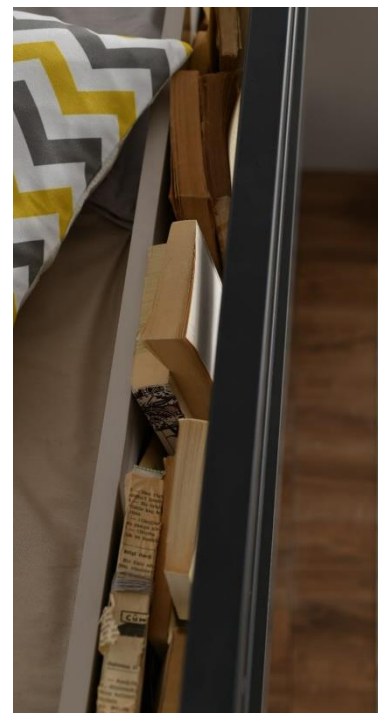

The 2K wardrobe, designed by evaluating the space under the stairs, comes to the fore with its functionality.

The study desk with shelves, which eliminates clutter and has a door and storage area, has a solution-oriented design.

Thanks to the trundle bed in the bed under the bunk bed, it becomes a functional set where 3 people can sleep comfortably even in narrow spaces.

The partition between the bed on the bunk and the railing is designed to be utilized for the storage of books. The led under the bookcase mounted on the side panel ensures that the bottom of the bunk bed is illuminated.

Product features

- In our product, anthracite and beige chipboard is used.
- The railings next to the stairs and on the bunk bed are made of metal.
- Daylight led and USB charging port are provided under the bookcase.
- B0201 linen dragon anthracite** fabric is used in the upholstered headboard.
- The handles are in anthracite and beige colors and provide integrity to the set.
- There is a 2D wardrobe under the stairs. Alternatively, a 3D wardrobe is also available.
- The legs of the study desk and the sliding bed are on wheels for easy movement.
